

THE ELOQUENCE

5-DAY EXECUTIVE PROGRAM

DAY 1: DICTION & SYNTAX (THE MECHANICS)

Goal: Purge lazy language and master the rhythm of authority.

- **The Lazy Word Purge:** Identify 3 "lazy" adjectives (e.g., good, bad, think) you use most often. Commit to their Executive Alternatives (Exemplary, Suboptimal, Maintain).
- **The Short Punch:** Practice ending a long explanation with a 3-5 word anchor sentence.
- **Synonym Swap:** Rewrite one "default" sentence from your upcoming meeting into a "Boardroom" context.

DAY 2: ARTICULATION & PHYSICS

Goal: Transform muffled speech into sharp, professional delivery.

- **Terminal Consonant Check:** Consciously "click" the last letter of every sentence (T, K, P, D).
- **Vertical Space:** Practice dropping your jaw vertically on "O" and "A" sounds to increase resonance.
- **The Down-Swing:** Record a 30-second clip and ensure your pitch drops at the end of declarative statements.

DAY 3: VOCAL MASTERY & RESONANCE

Goal: Move the source of your voice from the throat to the diaphragm.

- **Shoulder Check:** Stand in front of a mirror; ensure your shoulders remain still during deep inhales.
- **Core Engagement:** Perform 10 "Ha!" pulses to engage the diaphragm before your first call.
- **The Power Note:** Find your resonance by humming until you feel vibration in your chest.

DAY 4: PHYSICAL ELOQUENCE & STILLNESS

Goal: Align your body language with your verbal authority.

- **The Navel Rule:** Ensure your torso is pointed directly at your primary listener.
- **The Strike Zone:** Keep all hand gestures between your waist and chin; avoid "hidden hands."
- **Stillness Test:** Practice speaking for 2 minutes without shifting weight or tilting your head.

DAY 5: THE ART OF THE PAUSE

Goal: Use silence to command the room and eliminate fillers.

- **The Mouth Lock:** Physically touch your lips together the moment you finish a sentence to prevent "um/uh."
- **The Emphatic Beat:** Count to one (silently) before delivering your most important word or data point.
- **Zero-Sound Transitions:** Replace "So" and "And" with a 2-second reflective pause.
